

VAIL Cast is a streaming stereo amplifier designed to power any speakers and play your music anywhere in your home or office directly from any Android, IOS, phone, tablet, laptop, or Windows computer. It features Chromecast Built-in, Airplay 2, Works with Alexa, DLNA, Bluetooth, and Spotify Connect. Voice control your music through any Google Assistant, Apple Siri, or Amazon Echo mobile device or smart speaker. Amplify any audio source like TVs or desktop computers through the optical and aux inputs. The compact size is great for tabletop or wall mounting with the included wall mount bracket and decora plate that fits standard double gang brackets.
