

UB-222 | Wireless Boundary Microphone

Description

UB-222 is an affordable boundary microphone for a variety of conference and education scenarios

Product Specification

Carrier frequency band:	618MHz-651MHz
Modulation mode :	FM
Harmonic radiation:	More than 45dBm below the main wave
Band width:	134MHz (depending on region)
Maximum offset:	±45KHz
Components:	Fixed charging plate, permanent polar capacitor radio head
Polar Patterns:	Cardioid pointing (120° pick up Angle)
RF output power:	9mW
Dynamic range:	> 95dB
Volume potentiometer:	-10 to 10dB
Frequency response:	50KHz-17KHz
Low cut switch:	200Hz/-6dB
Battery :	AA * 2
Current consumption:	130mA (typical)
Battery life:	About 9 hours
Size (mm) :	110 (width) ×40 (height) ×110 (depth)
Weight:	About 505g (excluding battery)
